

FOR IMMEDIATE RELEASE

PIPLINE UPGRADE PLANNED IN SCARBOROUGH THIS SUMMER

Approximately 500 feet of pipe will be installed along Eastern Road

HAMPTON, N.H., July 23, 2018 -- Unitil Corporation, (www.unitil.com), a provider of natural gas and electricity to customers in New England, will be installing 500 feet of new distribution pipe along Eastern Road in order to insure reliability for gas customers within the community.

Work is scheduled to begin this week and will extend existing gas infrastructure on Eastern Road in the vicinity of the Eastern Trail to a new regulator station. Once underway, the gas work is expected to last through the month of August, though weather can impact construction time. During construction activities, traffic will require alternating lanes for the length of construction work along Eastern Road. Work was reviewed and approved by the Scarborough Planning Board earlier this year.

“Projects like this extension help assure that communities will have the modern gas infrastructure they need to continue to grow, heat the homes of residents and attract new businesses,” Unitil Media Relations Manager Alec O’Meara said. “We will continue to work with town officials to coordinate our gas projects to assure that any disruption to traffic is minimized.”

NEUCO, New England Gas Utilities Constructors Inc., will be managing site construction on behalf of Unitil.

About Unitil Corporation

Unitil Corporation provides energy for life by safely and reliably delivering natural gas and electricity in New England. We are committed to the communities we serve and to developing people, business practices and technologies that lead to dependable, more efficient energy. Unitil Corporation is a public utility holding company with operations in Maine, New Hampshire and Massachusetts. Together, Unitil’s operating utilities serve approximately 105,000 electric customers and 81,300 natural gas customers. Subsidiaries include Usource, Unitil’s non-regulated business segment. For more information about our people, technologies and community involvement please visit www.unitil.com.
