	<ul style="list-style-type: none"><li>• May 17</li></ul>	
9:00 am	Adjourn	

CIP Equipment – Electric Vehicle for Code Inspections - \$12,500

Planning and Codes has been a leader in migrating our vehicles to environmentally and fiscally sustainable all-electric vehicles (EVs). We currently have two Nissan Leaf EVs, one of which we have been leasing for the past three years aided by a Central Maine Power grant. The lease is now coming due and we are proposing that we acquire this vehicle for continued use. This EV has served us well over the past 2 ½ years; is ideally suited for around town code inspections and trips; can be charged overnight or when it is not in use; is very low cost to own and maintain; and is a great complement to the tri-generation unit that generates electricity on-site at Town Hall. This CIP will cover the cost of acquiring this Leaf after the expiration of the lease in the summer of 2017.
